PROFILE

I am a 22-year-old graduate from the IIE Rosebank College. I hold a bachelor's degree in information technology in business systems.

I am currently on a COBOL mainframe developer internship offered by ABSA in collaboration with CAPACITI. In my years of study, I have developed an interest in conducting data collection and analysis. I am extremely dedicated to my role, with excellent communication, planning, and teamwork skills. I have a valid driver's license

EXPERIENCE

COBOL DEVELOPER- INTERN

CURRENT

My role as a COBOL developer is to design, develop, maintain, and support applications written in COBOL (Common Business Oriented Language)—a legacy programming language widely used in banking, insurance, government, and enterprise systems, particularly for mainframe environments.
